Governor Ferry is in favor of revising the first sections of article 2 of the constitution, pertaining to the legislative department of the government. He finds several incomputities therein. Section 3 particularly has received his attention. It contemplates thirty-five renators, one-half of willow shall retire every two years. One-half of willow shall retire every two years. One-half of thirty-five senators it seventeen and one-half ser giors. For that reason the governor in drafting his bill provided for librity-six senators, so that an even number should retire blennially. Governor Ferry is in favor of a large legislature, as 160 cenators and 200 representatives. He says that one of the greatest dangers of the times is a small legislature, which permits of more victous legislation than a large one. He is strengthened in this lifes by recollection of the ime when the torritorial council had only hien members, live of when hundred together and opposed or worked to any bill according to the desire of any number of the clique.

Pun in the House Over Public Buildings-Washfogton Oities in Luck-Western Congressmen Pighting Two Bed Bills.

WASHINGTON, March 6.- OBEGONIAN office, Washington. March 6.—[Onescortan office, correct Fourieenth street and Pennsylvania sweenus.]—Another day has passed without the senate coming to a decision as to what shall be done with the newspaper correspondents who refuse to tell Dolph's special committee how they get the proceedings of executive sessions. The discussion to day was deveted largely to the power of the senate suder the constitution to nunish correspondents. Senator Dolph is gosting a great deal of attention in the newspapers, some of them criticisting him severely, because he is chairman of the appendial committee investigating the newspaper correspondents, and because he reported a resolution to imprison the correspondent who refused to

nawer questions. He is especially fidenied by the men who would be subject to this puntations. The New York Times this morning says:

"There are indications, indeed, that the senators are getting weary of Mr. Bolph and the resolution to commit the contempations witnesses, which he wants them to adopt and are becoming indifferent to the outcome of the farce. One of these indications was the empty appearance of the senate chamber when to day's sitting came to an end. The senators began to drop out of the chamber when Mr. Bolph began to quote the speciels of their dead and gone predecessors. imprison newspaper mon who published the sen-

The long time in coming to a decision and the amount of discussion; together with the dippart manner in which the whole affair has been treated by the preas, has caused a breach of good feeling between a number of states and the newspaper men who are made to gathering executive secrets for their papers.

Representave Lind of Minnesota distinguished Representave Lind of Minnesota distinguished almost in the heuse to-day. A bill which provides for the computionry attendance of witnesses before land officers or before persons authorized to take bestimoney in land cases was under consideration. Mr. Lind opposed the measure on the ground that it gave land aharks an opportunity to bring contests against honest settlers and compet vintesses. Under the voluntary system settlers are always willing to testify in favor of their peighbors. The settlers, he said, never had trouble in getting witnesses, but when a land shark came into a community and tried to get a man's homasted of a pre-emption the could always get voluntary stituestoe. The bill was laid and before any action was taken, but it is quite likely that the opposition which he stirred up will prevent its passage.

Benator Alizann's attitude on the two principal tariff issues was onlined to a reporter to-day with some distinctness by the senator himself. When abown a publication in a New York paper which stated the senator's leaning toward some states the senator's learning toward some important propositions on the Mais hill be said: "I don't eare to discuss the matter while the house committee is busy. You may say that I am in favor of a deep cut on sugar. I will not say that I avor abolition of duty and payment of bounty. As to tobacco, you may say I will yot to aboliah that ax on it very religotantly. We will have a hard time explain-ing the duty on a great many necessaries if we stoolish the duty on this inxury."

The pessence of Representative Clunic's bill for a public building at San Jose, is a good thing for Washington state bills. Clunic is a member of Washington state bills. Clunic is a member of the brone committee on public buildings and grounds, and Senator Squire is on the same committee in the senate. These two gentlements have an understanding and are working togethen. Cleante will get democratic support in the house for the Washington bills, and Squire will be able to assist Clunic in the senate. The action of the house to-day would indicate that the three Washington cities will got \$200,000 or \$200,000 each for a public building.

the Standard Last Night.

One of the most exciting glove contests witnessed in this city for some time took place at the Standard theater last night. The match was between a man named Reed and Zaroni, an all-round athlete from Milwaukee. It was a little after I o'clock when the crent of the evening was announced, and by that time the large andience was in a lover of expectancy. Frank Glover, the noted middle-weight, was chosen referee, and Mike Conley and Tom Gienry, both equally as well known to the sporting world, acted as time-keepers. The fight haside seven rounds and was won by Reed, who had somewhat of an advantage over his advaragery in hight and reach.

During the first round there was little blitting done, slithough both got in several good blows. The second yound ended slightly in favor of Zaroni and in the third and fourth rounds both men did good work. Zaroni got a few situging long in the face of the northern conting washer with eathed to head. The rest of the rounds were in favor of Reed, Zaroni becoming washer with eathe low, and at the end of the seventh he latter lailed to come to time. SALESMAN—Yes, this is the stove you inquired for. As you say, it does not look exactly like the one your mother reconstructed you to day, and which she thinks so much of, but it is a Charler dink Manage. We have the Look Sloves of the same minks but it is a Charler of the Manage. We have the Look Sloves of the same minks but it is lange strough and, as they are more convenient. How loog has your mad or laders are not convenient. How loog has your mad or had beer stove?

Young Manued Lady—Oh! ever so long. She bought it when I was a buby, and has been using it ever since, and she told me I must got the same kind.

Salesman—Well, thus is the same kind. That is, it is a Charler Oak, but you mader need her that tventy years is a long time, and improvements have been made duce your mother got heard. This liangs has the wonderful Iffer & Creare Over Moor, which you have productly heard of, as it is known and sold everywhere in connection with our stoves and langes.

Young Manered Lady—Oh! I remember how. She spoke about that, but I can't understand why that should make it so much hetter than our old stove, as that was as go of an it cauch be.

Salesman—There is no doubt about its being much better; it is a wonderful improvement. It bakes overything so much inter, and the meats are not dried up like, they are in the old fashioned tight ovens. Why, a steak can be broiled in that oven as perfectly as over a charcoal five, and the natural jutces of the meat, which make it so appetizing, will all be related. It is just the same with roast meats. Of course it is needless for me to speak of its other good qualifies, as your mother's advice has made that unnecessary.

Young Manued Lady—Well, of course, I will take it. Please have it put up as soon as you can, as we have no slove yet. We are just commending butsekeping, you know.

Sateens.

This delightful Summer dress material is going to take the lead again this season. There seems to be a perfect craze for these goods this Spring, and both the foreign and our own manufacturers have eclipsed their previous work. We have just received our first importation invoice, and are placed on our counters for inspection. The patterns and designs are something new a description of the many new designs would take up too much of our space and we will content ourselves by saying that we are positively showing the largest and grandest range of designs in SATEENS of any house in the city, and the styles are exclusive with us. They are as handsome as India Silks, and not near as expensive. The colorings are new and perfect. Intending purchasers are requested to examine our line and note

congres The horse committee on courage has the rup the Windom bill and is considering it section by ection. He senate committee has appured its own bill though no ful report out has yet been sent by telegraph to the part of the country It may serve an useful pirpose to state the leading pinerpies and silimit features of these two measures and to point out their

Have see and dileterace.

Both bills put an end to hole morease in the comage of standard dollars by repealing the provision in the present law for the computatory coincide of \$2,000,000 per month. This is a good thing—about the only good thing in orther bill by the way. The senate bill declares that the secretary of the trens ary must buy \$1.500,000 worth of silve bullion per month. The trensury 1.11 pro vides that he may buy at the at ver bullon (rom American mines) the tis offered unless he has reison to believe that a comb nation has been made to raise the price Both bills provide for the issue of purchased, at its market pri c at the time of purchase. The sen to bill declares that these treasury notes shall be redeemable upon den and in lawful money that a in sold, in alver dollars or in tegal tender rotes at the option of the government. The treasury bill provides for their reducing the ingod or in safeer bullional its muriture on the day of precents on at the option of the government. These are the man features of the two measures.

Balmon Protective Law Bald to Be Defective-Various Bhipping Notes—Yaquina Bound of Trade's Action.

As noon yesterday, in the Unised States circuit court, Hou. L. T. Barin was installed as United States marshal for this district. The oath of office was administered by Judge Sabin, who delivered Marshal Barin his commission and ordered that it be spread on the records of the court.

Judge Sabin congratulated the new incumbent to his accession to office, and complimented the retring marshal, Mr. Myers, on behalf of himself and Judge Beady, on the fatthful and efficient manner in which he had performed his duties, and said that his retiring at the end of two years should not cause him any regrets, as it was not on account of any misteasance or malicasance in office, but was owing to a change of administration. Mr. Myers, who had vacated his desk and led his auccessor to the place, made a suitable reply, and District Attorney F. P. Mays tendered his thanks to Judge Sabin for the courtery he had shown him since taking charge of the district attorney's office.

Jule Sabin them addowned the circuit court

A COLLEGE-BRED DHINAMAN.

An Interesting Talk With Yan Phos Lee Who

Is Now Visiting Portland. Yan Phon Lee, the Americanized Chinaman spoken of in these columns a few days slice as a graduate of Yale college, and who is probably through the articles in various magazines and papers the most widely known Chinaman in merica, called at THE OREGONIAN office yes

work:
is a alight boilt, pleasant appearing young
who, with his olive complexion, black musand spectacles, would puss for a Spanniard
illian. He speaks English perfectly, is bright
vide awake, and exhibits in his convocaall the intelligence to be expected from a

and the line line line of the expected from a graduate of Yale.

Yan Phow Lee was sent to this country as a student by the Chinese, government in 1873, and was catted home in 1881, and booked for the mavy, but, not fancying a life on the cosan wave, he skupped to this country. He is a native of Hoang Shait, in the province of Canton, from which nearly all the Chinese in this country come. He past have a subject to the country come. He past have a subject to the country come. He past have Englanded a colory of the married and les Jerome, of New Haven, all was married a Miss Jerome, of New Haven, as the married a control to take out his final papers per lander, and intends to take out his faint papers per lander, and intends to take out his faint papers per lander.

and that again and the limit papers and becoming the country and these has and education, has the country and likes has and education, has the country and likes has and education, has be country and likes has and education, has be country and likes has and education, has be country and likes has and it can get up a lecture on the shall. "If I do not, I will raise a row, and make a noise, and a not a not in the like has a row, and make a noise, and i not an et up a lecture on the shall." He says he likes literary work, and is going to be a behemian as the as his duties to his family will allow. "It is a pleasmant life," he added, "it we do not get rich like others."

Yan Phou Lee said he was very gind to visit Forland. He knew the sentiment of the clittens ou anti-Chinese agitation, and had a high regard for a place and people where the strong were willing to protect has weak. He says if the exclusion law is enforced, in earnest, in ten years there will not be 5,000 chinese in San Francisco. The exclusion act he thinks is foolish, as the Chinese government was willing to restrict enagration. Chinese now find their way here through Canada paying 800 to hand there and as much more to get across the line. If a limited number were allowed to come here, and an "entrance fee" of \$100 charged, this country would get the money now received by the Gannelians.

Prisoner-Municipal Courts-Blotter.

W. C. Roberts, the emberrier, was arraigned in Judge Stearns's court resterday morning on an Indicument charging him with macking away with 1860 Lelonging to William Dunbar & Co. The prisoner tooked a little more gentred than the urusal run of crimonals, and evidentity felt the humiliation of being in the position he is in. Al-though somewhat affected by the gaze of cuttous speciators, Roberts was remarably composed when he adject the countroof.

THE UNHAPPY GRUENINGER PAMILY

The domestic troubles of this family have been alred in the police court, the two justice courts, and father divorce court, but the end is not yet. Ever and anon Ignate, the husband, who at online geined considerable motoriety as a glass cater, and Caroline, his wife, appear in court for they consider their just deserts. But their difficulties appear to be interminable, and the lawyers are the only ones who get what they want.

Mrs. Grueninger applied for a divorce last summer, but the bushand contested the case out she was doned as devere. Yesterday site field another suff, sotting forth new altegations, but hand to deny anything that she mry assert.

Protection.

"Although no instances have been brought to our attention, the probability is that the salmon law is still being violated by some flakermen," said Flak Commissioner Thompson resterday, "We are in some doubt as to whether we would be able to secure a conviction in care we should make an arrest. If there is any chance at all to convict we shall not hesitate to protectle, but there is no use of going to needless expense. The rub is in Judge Taylor's ruling that a steelhead is not a salmon. The result is both Chinock salmon and steelheads are caunts and few know that is really defective, for it gives flakermen to much instude and the inducements to without his are too great. To be added by dovernor from much instude and the inducements to without his are too great. The law protects for the eight into adjourns. That law protects stockneeds, Chinock salmon and busbacks during the close scason and that is the law that should protect our salmon in Oregon."

Another gentleman, speaking of this matter, and to a reporter:

"If the Chinock salmon in the Columbia river have to wait for a new law to pass in this state of the Oryginal selection and the is the salmon in the salm this state of the Oryginal selections and the is the salmon to the columbia river have to wait for a new law to pass in this state of the Oryginal selections are a salmon in Oregon."

Another gentleman, speaking of this matter, said to a reporter:
